Description:

The insurance companies were collected from a Great West survey.
This insurance contacts were collected from marketing emails I received.
Typically, I get a bunch of these emails when my insurance is up for renewal.
I left out those that looked too spammy or did not have a direct contact person.

Disclaimer: Excepting David Carr and Jason Huff, I have not vetted any of the companies or insurance contacts, but at least they may be a place to start your research. Good luck!
